

With experience ranging from the smallest of consulting projects to large federally-funded recovery and rehabilitation programs, Royal is equipped to manage and deliver projects from conception to close-out.

With experience ranging from the smallest of consulting projects to large federally-funded recovery and rehabilitation programs, Royal is equipped to manage and deliver projects from conception to close-out, and produce quality deliverables on schedule and on budget. Royal has developed a battle-proven process for navigating the FEMA PA Program and a strong reputation for performance across a broad spectrum of Disaster Response and Recovery activities, demonstrating a deep understanding of FEMA and GOHSEP rules and regulations. Since inception, our team has responded to over two dozen disasters around the country with combined program values exceeding three billion dollars. Our past performance, proven experience, and established working relationships with funding agencies combine to assure a successful project. As a result of our specialization in administration of the FEMA Public Assistance (PA) Program, coupled with a reputation for quality, Royal's in-house team of engineers, scientists, architects, land surveyors, planners, schedulers, technicians, and construction inspectors are positioned to assist with all phases of recovery program management. Our team has proven to be proficient in executing all program activities in an effective and reimbursable fashion for our clients and are repeatedly engaged to provide program administration, management, and engineering services for disaster recovery programs.

Our disaster recovery services and experience include:

- FEMA Public Assistance
- FEMA Hazard Mitigation Grant Program (HMGP)
- HUD Community Development Block Grant- Disaster Recovery (CDBG)
- HUD Community Challenge Planning Grant
- Emergency Watershed Protection
- USDA Emergency Conservation Program (ECP)
- Tiger III and Tiger IV Grants
